Applications/Limitations

1. This Material Manufacturer Certificate does not exempt any purchaser from his responsibility to ensure that this qualification is valid for his products within the requirements of NORSOK M-120.
2. Samples for production testing shall realistically reflect the properties in the actual plates as per material standard/specification and purchaser requirements.
3. The re-qualification process shall be repeated if any change is made to essential variable, E.g. change in the forming process and a major change of manufacturing equipment, etc.
4. If production is carried out at different plants/locations, a separate qualification is required for each plant. The also applies to change of in-house to subcontractors or change of subcontractor for essential operations. E.g. heat treatment, etc.
